

# Groww Scholarship Programme at NITK

**MANGALURU:** The National Institute of Technology Karnataka (NITK), Surathkal has announced the award of the Groww Scholarship Programme for the financial year 2025-26, under which Groww, the financial services platform, has funded scholarships for 200 undergraduate engineering students. The programme provides financial support to students from economically weaker sections across all BTech disciplines at the Institute.

Support is provided under two categories. The Well-Being Scholarship of Rs 70,000 per annum, awarded to 190 students—158 male and 32 female—covers living expenses.

The Full-Ride Scholarship of Rs 2.50 lakh per annum, awarded to 10 female students, covers tuition fees and living expenses in full. The decision to earmark the Full-Ride award exclusively to women reflects a shared focus on addressing the underrepresenta-

tion of women in technical education.

Students are selected on the basis of academic performance and verified household income. The Well-Being Scholarship requires a minimum CGPA of 6.0 and annual household income below Rs one lakh. The Full-Ride Scholarship requires a minimum CGPA of 6.5 and household income between Rs 1 lakh and Rs 8 lakh. All candidates must maintain attendance above 75%. Income certificates, grade cards, and attendance records are verified before disbursement.

The Groww Scholarship Programme is part of a broader industry engagement model at NITK Surathkal, where organisations invest directly in student welfare alongside the Institute's academic and research partnerships. The programme runs for FY 2025-26, with continuation subject to Groww's review and criteria notified by NITK Surathkal.
